It isn't much trouble for a really healthy man to be good humored. Jollity and exhuberant health are a proverbial combination. The hearty man who is always laughing doesn't have any trouble with his digestion. It has been said that laughing makes people leadthy. The truth is that health makes people leadthy. The truth is that health makes people leadthy. It is impossible to estimate the tremendous influence of health upon human character. A man with a headache will not be in a happy, contented frame of mind. A man who suffers from a weak stomach and an impaired digestion will sit and grumble through the best meal ever prepared. A bilious man who is not petulent and fault-finding is a curiosity. All these conditions lead to grave diseases, when the victim becomes not only disagreeable, but dependent as well. A wise wife will realize that while the old saying that a 'man's heart is in his stomach 'is not literally true, it is a fact that his stomach sweetens or sours his character according as it is healthy or unhealthy. Dr. Pierce's Golden Medical Discovery is the best of medicines for the conditions described. It makes the weak sounch strong, the impaired digestion in fact, invigorates the liver, purifies an enriches the blood and tones the nerves. It tears down half-dead, inert tissues and replaces them with the firm muscular tissues of health. It builds new and healthy nerve fibres and brain cells. It dissipates nervousness and melancholy and imparts 'nat clasticity and courage this best of all known medicines for nervous disorders. It is the best of all known medicines for nervous disorders.
"Through your skillful treatment I am once more a well man," writes J. N. Arnold, Esq., of Gandy, Logan Co. Nebr. "I suffered for years and could not find relief until I commenced taking your 'Golden Virtical Inscovery.' I suffered with constipation and torpidity of liver which resulted in irritation of the prostate and inflammation of the bladder. I had only taken one bottle when I found creat relief. The medicine has effected a permanent cure."

MONKOE DOCTRINE.

An idea has largely entered the publie mind that the Monroe dectrine is endangered by the course of the United States in the Philippines. The doctrine at no time in its history has received such recognition as it has received since it was brought to the front and applied by President Cleveland to the boundary line dispute between Great Britain and Venezuela. HE ONLY LOOKED ON. The Man Who Went to Boss the Hoisting of a Plane.

"It seems to me they don't do any. thing now in the same way they did a long time ago," said a man who had gone up to his house to boss the job. "I bought an upright plane, and when I had paid for it I told the agent I would be at the house at a stated hour, as I wished to be present when the piano was hoisted. I noticed the agent smile, but he said nothing. I thought no more of it until after I had gone home and noticed the way in which the piano was moved into my apartment on the fourth floor. When the men drove up with their cart, I asked them where the hoisting machine was. One of them

whistled, and the other one said it

would be there all right, and he winked

at the fellow with the puckered mouth. "Then they opened a kit of tools and began taking that piano to pieces. They first removed the action, and one of the men asked where he would take it, meaning what floor. While he was gone another man unscrewed the legs which supported the keyboard. The third man carried up the legs, and while he was gone the first man returned and took up the keyboard which the man with the screwdriver had taken off. That left the back and sides of the case and the sounding board. They were not taken apart. A fourth man was picked up and given the job of assisting the three in carrying up what remained of the plane. All this was done in about 10 minutes. I had nothing to do except to look on. As the team moved away one of the men called back, 'We'll send that hoisting machine up later.' Twenty years ago my piano was delivered by safe movers. They took half a day to do it.

Liszt's Agony of Sensitiveness.

-Chicago Inter Ocean.

"Liszt bad already played a great fantasia of his own and Beethoven's twenty-seventh sonata in the former part of the concert. After this latter piece he gasped with emotion as I took his hand and thanked him for the divine energy he had shed forth. At last I had managed to pierce the crowd and I sat in the orchestra. My chair was on the same board as Liezt's piano when the final piece began. It was a duet for two instruments, beginning with Mendelssohn's 'Chants Bans Paroles' and proceeding to a work of Liazt's. We had already passed the delicious chime of the 'Song Written In a Gondola.'

"As the closing strains began I saw Liszt's countenance assume that agony of expression, mingled with radiant smiles of joy, which I never saw on any other human face; only in the paintings of our Saviour by some of the early masters. His hands rushed over the keys, the floor on which I sat shook like a wire, and the whole audience was wrapped in sound, when the hand and frame of the artist gave way; he fainted in the arms of the friend who was turning over for him, and we bore him out in a strong fit of hysterics.

"The effect of this scene was really dreadful. The whole room sat breathless with fear, until Hiller came forward and announced that Liezt was already restored to consciousness and was comparatively well again. As I handed Mme. de Cicourt to her carriage we both trembled like poplar leaves, and I tremble scarcely less as I write."-Pittsburg Dispatch.

Wonderful Feats of Shooting. M. Bordeverry, a Frenchman, can

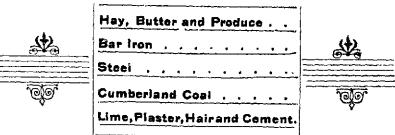

give most of the crack rifle shots of the world several large pointers about their art. His accuracy and rapidity of aim are simply astonishing. At a distance of 80 feet he can cut a piece of cardboard through the edge as it is poised upon the head of an assistant. At a similar distance, leaning himself flat on his back over the seat of a chair, with a pistol in his hand, he can send spinning a threepenny piece which rests, half hidden, upon his assistant's head. He will knock the ash off your cigar at a distance of 80 feet or light your wax vesta for you, if you care to hold it. At ten yards he can cut a swinging thread, and at the same distance, with three successive shots, he will pick off three small trifles balanced one upon the

VeryPlain Reasons Why

Cheapest Sell

Claims of supremacy are ineffectual unless they are backed by solid arguments that establish absolute facts. Exaggeration flows easily and smoothly from many retail sources. We could advertise wildly and frantically, but crediting the public with intelligence and powers of discrimination, we prefer to print our modest statement, and calmly sustain them with the most logical of reasons, for in 'unce:

No retailer in the world buys goods more advantageously i an the Novelty Dry Goods Store Co. Frequently we may not secure staple articles for less money than others pay, but we in variably sel' cheaper

BECAUSE WE ARE SATISFIED WITH SMALLER PROFITS

The actual amount paid for goods is only a part of their cash. Every man and woman understands that each department must contribute its pro rata percentaee for general store expenses-including losses that the credit system involves.

> Four Reasons Why Our Prices are Lowest: WE DO NOT SELL ON CREDIT WE DO NOT GIVE DISCOUNTS WE ARE VERY CLOSE BUYERS WE ARE NOT EXTRAVAGANT

Other stores tax cash customers for losses sustained by delinquent credit customers. Other stores levy tribute from YOU to compensate for discounts and commissions granted a favored few. WE DO NOT. You only: my customers get the discount. WE ARE NOT EXTRAVAGIANT, Do you great the full meaning of these words and comprehend their connection with your purses? The NOVELTY is not an Extravagant Store. The merohanities, thoughts and features are always foremost. Artificiant and tawdry decorations are costly. Thentrical glare may please the fancy, but it increases the price of goods. Our practical and conservative methods of store management are not intended so aposal to your sense of display. They are meant to necord with your ideas of economy. Many house indulgs in spectacular display AT YOU'T EXPENSE The Novelty Dry Goods Store may be comparatively plain, but values are wholesome and distinctive.

Saturday, the seventh day of the week, was a day of rest for the Suprems Court, the two wish-to-be-Governors, their attorneys and all others interested in or in any way connected with the Gubernatorial contest.

Their Honors will again don the ermine Monday, when they will count the votes of Churchill and finish examining the ballots of Humboldt and Esmeralda counties. The precincts yet to hear from were largely McMillan's strongholds. This is supposed to wind up the ballot counting.

Judge Thomas Wren said to a JOUR-

will reach eighty. "Gold Hill and the second ward of Virginia were McMillan's Waterloo.
